Dear ISO Community,

Please find the version 2.0 our school counselor's newsletter below.

As a reminder, tomorrow, there will be no school for students, as ISO faculty will use this day for Professional Development.

Please enjoy this "long" week-end, and see you on Monday.

Best regards,

Social Emotional Learning Counselor Newsletter

Dear ISO Families,

Kind regards to all. I would like to take a moment to explain an evaluative process that ISO uses known as MAP (Measures of Academic Progress).

You can view the MAP test scores for ISO below. Your child's individual scores are now available on Plus Portals. The abbreviation, **RIT**, is a measurement scale used to interpret the test scores. ISO offers the MAP test three times each school year-September, December and May.

This was the first round of scores for this school year. Although some of the grade levels are below US norms, these initial scores provide teachers with the information they need to improve student outcomes. Teachers directly plan for targeted, tailored instruction. The ultimate goal is to assure measurable growth for the school year. In short, the scores are used to help me and "your child's teachers teach, and for the learners to learn." This process supports improvement in scores.

Math scores are looking very strong this first round of testing, as do the science scores. The newly adopted science curriculum is aligned with the Next Generation Science Standards and has proven to be an effective curriculum here at ISO.

If you have specific questions about your child's results, please contact your child's teacher.

Kind regards,

Lisa Cullen
Social Emotional Learning Counselor
